

ECO PRO FUEL ISLAND & "C" STORE CLEANING PROGRAM PRODUCTS

**A product line that can be universally implemented
to meet corporate compliance issues**

The ECO PRO line of products was designed specifically to address the cleaning requirements associated with fuel islands and "C" stores. Each product has been developed using extremely innovative chemistries and thoroughly tested to meet specific performance standards.

Our objective was to create a product line that not only out performed current products but also addressed bottom line economics, slip and fall issues, bioremediation, oil and water separators, ease of use, distribution economics and customer friendly packaging.

This one of a kind program analyzed not only [OUTSIDE CLEANING](#) but also [INSIDE CLEANING](#) and those needs found in [SERVICE BAYS & LUBE CENTERS](#) for those establishments which contained them.

Based upon the tremendous success of this unique product line we not only achieved our established goals

This will be our opening page

My thought was to allow visitors to click on the hi-lighted items so they may go directly to that web page. If we have room for a drop down than that would also be an option.

Dick

ATTACK Petroleum Microbial Cleaner 5X Super Concentrate

Fuel island cleaner/degreaser. A bioremediation product that utilizes microorganisms to extend the cleaning ability of the product beyond that of typical degreasers. Microbes penetrate surfaces where brushes can not go. Helps prevent slippery floors-increases coefficient of friction. Biological pretreatment of wastewater. Reduces labor costs. Leaves no film. Cleaning solutions last longer. Extremely cost effective due to its being a "5X" super concentrate.

KLEEN SHINE Stainless Steel Cleaner

A ready to use one-step cleaner and polish. Maintains the finish of stainless steel, copper, brass, aluminum, bronze, and chrome. Non-abrasive. Inhibits re-soiling. Spray on and wipe off-it's that easy. Designed for fuel islands.

KEM TREAT Powder Concrete Cleaner

Designed to clean and brighten concrete and porous ceramic tile that is under considerable daily contamination of oils and greases. A phosphate free, biodegradable product dedicated to effective penetration and rinsing. The addition of "clear water chemistry" promotes solids to fall out of the solution. This means mop buckets will last longer, less contaminants will be put back on the surface reducing the liability for a slip or fall. Brightens surfaces using chemistry similar to "Oxy clean" as seen on television.

SURFACT 3200 Glycol Enhanced Cleaner/Degreaser

When used as is or diluted up to 3:1 the presence of the glycol based solvent assists in the rapid dissolving of heavy greases and oils. Cleans fuel pumps, 5th wheels, gears, bearings, parts, brake pads, equipment and much more. Can be used as is or diluted with water. Easily replaces traditional corrosive based cleaners for a safer work environment.

CRETE MEDIC Waterless Concrete Cleaner

A dry, waterless concrete cleaner designed to cover and remove oil stains from concrete. This product contains natural bio-organics that continue to breakdown oil for weeks after the application. Apply powder to area and spread with a stiff bristle broom. Allow 2 hours for product to settle in. Treated area will blend in with rest of the surrounding concrete surface.

ECO PRO MIKRO KLEEN Hydro Packs *Powder Floor Cleaner Super Concentrate Water Soluble Packing Film*

A revolutionary product system designed to be the ultimate convenient safe way to use and handle floor cleaning products. Convenient sachet pack (water soluble) of pre-measured product (the packet itself completely dissolves in water). Correct dosage every time. Increases coefficient of friction on potentially hazardous walking surfaces. Microbes penetrate surfaces where brushes can not go. Consumes odors and waste by-products. Economical to use. Safe handling for employees. New clear water chemistry drops solids from mop water (mop water lasts longer, less contaminants are put back on floor thus increasing floor friction). This product offers benefits far beyond what is normally expected of ordinary floor cleaners.

[Click beaker for technical bulletin](#)

ECO PRO OXY PAK Hydro Packs *Powder Laundry Detergent Super Concentrate Water Soluble Packing*

A revolutionary product system designed to be the ultimate convenient safe way to use and handle detergent products. Each pack contains a measured dose of fully built super concentrated detergent for use in all types of washing machines. This product contains scientifically selected multiple enzymes and surfactants to ensure optimum cleaning performance. Contains anti-re-deposition agents, oxygen released color

[Click beaker for technical bulletin](#)

safe bleach, optical brighteners, and anti-caking agents. Economical to use since the dosage is correct every time. Safe handling since hands never come in contact with cleaner.

SERVICE BAYS & LUBE CENTERS

ECO PRO SURFACT 1281

Cleaner/Degreaser Concentrate

Better performance at greater dilution ratios. Excellent environmental and safety profile. VOC free. Used solutions break rapidly for waste oil recovery. Replace multiple cleaners with one product. Excellent emulsification of fats, oils and greases. Performs in both soft and hard water. Can be used in floor scrubbers, mop buckets, pressure washers and as a spray and wipe. Can be diluted up to 128:1. Excellent product choice for mechanics bays, oil lube centers, industrial and commercial floor cleaning, equipment cleaning and degreasing, printing presses, pulp and paper equipment, etc. Completely biodegradable.

[Click beaker for technical bulletin](#)

ECO PRO SURFACT 3200

Glycol Enhanced Cleaner Degreaser

When used as is or diluted 3:1 the presence of the glycol based solvent assists in the rapid dissolving of heavy grease and oils. Contains all the features and benefits of our SURFACT 1281 with the addition of a water based, VOC compliant. Provides the versatility of a heavy duty spray and wipe product along with the versatility of a cleaner/degreaser concentrate. Excellent for cleaning 5th wheels, gears, bearings, brake pads, parts, greasy engines and equipment, printing presses, pulp and paper equipment, etc. Can be diluted up to 128:1. Biodegradable.

[Click beaker for technical bulletin](#)

ECO PRO KLEEN HANDS

The Best Waterless Hand and Equipment Wipe

The heavy duty multi-surface (one side is smooth and the other side has a non-scratching abrasive texture) cleaner wipes are great for on the road or when you can't get to a sink. Safe for hands and skin. Fresh citrus scent. Non-scratching abrasive fabric. Wipes can also be used to clean factory equipment, print presses, graffiti, ink and oils spills, etc. Can be used on just about any surface. Excellent choice for on the road service technicians. One container includes 72 - 10"x12" wipes. VOC compliant. Contains select emollients to prevent skin and hands from drying out.
